Introduction

In previous years, every January Belgium Triathlon identified athletes on a “[National List](#)” based on results from the previous season. In an effort to **simplify** the selection procedures and to allow a more **open** process in which an athlete can join the National Team at any point throughout the season, Belgium Triathlon has decided to no longer produce this list.

An **athlete is considered part of the National Team** if he/she **meets the selection criteria**, complies with the selection procedure and subscribes to the terms and conditions of the national team, including the Code of Conduct (Appendix 1).

The ambition of the Be3 is to promote junior development. **However, selection for an event does not necessarily equate to funding for the event.** Each league has its own funding policy and athletes can contact their respective Technical Directors for more information.

The **Be3 Selection Committee** consists of:

- Technical Director of the 3VL
- Technical Director of the LF3

Athletes are responsible for the following:

- An athlete who wishes to participate in a competition from the TRI calendar must **provide his/her program by e-mail to the technical director of their respective league 60 days prior to the event.**
- **Changes** to this program must be emailed to the league technical director **at least 45 days prior** to the date of the event.
- Start list will be created the first Tuesday 30 days before the event. **Athletes who withdraw late** - meaning within the period that TRI produces the start list up to the competition day - **will be charged an administration fee** by the league to which the athlete is affiliated equal to the **registration fee plus 250€** per late cancellation. Only if there is a valid reason for late cancellation (e.g. acute injury or illness) the 250€ fine may be waived.
- The **athlete is responsible for communicating the accuracy of their race calendar** at all times. Athletes may consult the status of the TRI events he/she is registered in by logging into their world triathlon account on www.triathlon.org
-

After this, the following procedure is followed:

- Each league's technical director is responsible for registering the athletes affiliated to their respective league on the TRI waiting list. TRI assigns a starting place according to the usual [TRI regulations](#).
- The Be3 SC will assign available quota places to athletes achieving the specific Be3 selection criteria outlined below. **Achieving the specific criteria does not guarantee a start as this will depend on the available quota places assigned to Be3 by World Triathlon and an athlete's individual ranking.** An athlete on the start list should not automatically assume that he/she can effectively start.
 - After a start list is produced, an athlete may always consult his/her place on the [waiting list](#) on the triathlon.org website.
- In case there are more athletes than available quota places, athletes will be given priority based on the specific Be3 selection criteria outlined below.

- In case no agreement can be found in the Be3 SC on the composition of the national team, the views of each member of the Be3 SC will be transmitted to the members of the AC Be3, which in turn will make the final decision.
- When a member of the national team is injured or ill, or wishes to withdraw, the Be3 SC reserves the right to reassess the selection in consultation with the athlete and his/her staff. To this end, the Be3 SC may request additional information from the athlete, physician, the federation doctor and/or the personal trainer. Hereby the rules of privacy and professional secrecy will be respected. The Be3 SC may decide to field another athlete in its place, but is not obliged to do so.
- The Be3 SC determines the selection in good conscience to delegate the strongest possible Belgian selection and/or achieve a specific learning goal/development objective.
- As soon as the final national selection is made, the TDs communicate this to the selected athletes.

General selection criteria:

- Hold a competition license at 3VL or LF3.
- Be able to present a valid sports medical certificate (ECG & PPE) in accordance with [TRI medical rules](#). The attestation must be delivered by e-mail to the league's technical director at least 45 days prior to the first competition.
- Be of Belgian sport nationality as provided by TRI.
- Meet the TRI eligibility criteria (athlete agreement and anti-doping regulations), as outlined on the website www.triathlon.org
- Meet the specific Be3 selection criteria.
- Be medically fit to be selected for the competitions listed below.
Be3 SC reserves the right to still not select an athlete if he/she cannot participate at his/her full potential; for example, due to illness, injury or other circumstances.
